

INTRODUCING THE NEW SPARTAN

The Spartan boot has been tested to comply with the SANS/ISO 20345 safety footwear specifications and carries this stamp of approval.

This product is manufactured at Bagshaw Safety Footwear, a division of BBF Safety Group (Pty) Ltd, which is an ISO 9001 accredited factory.

SPECIFICATION SHEET

Style Name: Spartan
Style Code: 4005
Size: 4 - 13
Sex: Male
Colour: Black

UPPER

- The upper is cut from 1.8 - 2.0mm Buffalo Barton Leather, which is strong and has high wearing durability.
- This is an entry level PU/Rubber safety shoe which has a high degree of comfort and durability.
- Ideal for the construction industry. The low cut padded collar gives added flexibility and movement as well as good support.
- The four pairs of "D" rings are made from steel, which has been treated with a corrosion resistant "gunmetal" coating.
- The lace is braided and made from a polyester yarn with high abrasion resistance together with a central core for extra strength.
- The collar padding material is from closed cell foam for superior comfort and support. A special "Spat"/Metatarsal Guard protects the instep area of the foot to prevent or minimize injury to the wearer.

IN-SOCK & TOP SOCK

- The in-sock is from a specially developed antistatic, non-woven material, which has exceptional directional stability, durability and comfort.

LINING

- The vamp lining is made from a special needed Hi-Tech Fibre blend, which has excellent perspiration absorbency. This results in a low heat build up and a more comfortable shoe for the wearer.
- The quarter lining is from industrial quality material with good abrasion resistance.

TOE CAP

- Extra wide fitting toe cap.
- Can withstand an impact load of 200 Joules.

SOLE: Inyati (PU/Rubber)

- The rubber is heat resistant, cut and abrasion resistance and provides excellent SRC slip resistance on most surfaces.
- The cushioned midsole is made from a flexible low density Polyurethane with a shore hardness of 45 - 55.
- The outer sole is made from a hard wearing PU/Rubber with a shore hardness of 60 - 75.
