

# LEMAITRE GLOBAL

Lemaitre is a proudly South African brand dedicated to producing top-quality safety footwear crafted “by workers, for workers.” As part of the BBF Safety Group, the largest manufacturer of safety footwear in Africa, Lemaitre ensures that every product meets stringent international safety standards through meticulous material selection and skilled craftsmanship. In addition, Lemaitre Global taps into international trends, offering niche styles that complement local preferences and strengthen the brand’s global competitiveness. This blend of local production and selective importing allows Lemaitre to support South Africa’s economy and workforce while delivering exceptional safety footwear.

## STAY GROUNDED IN THE **NEW RAGE** **AND BOLT** SAFETY SHOES

**ESD RANGE**

## ELECTROSTATIC DISCHARGE PREVENTS STATIC BUILD-UP

Lemaître's new ESD range is developed to prevent static build-up in line with global standards for industries working with sensitive electronic equipments and components such as automotive, electronics manufacturing, chemical industries and cleanrooms. ESD protection protects both workers and equipment helping prevent damage to sensitive electronics and reducing the risk of igniting flammable substances. Trust Lemaître's ESD range to stay grounded in the workplace.

### PARABOLIC

#### BOLT S3 ESD

4-12 Black | 8405-STC

Water-repellent micro fibre upper, velour finish for lightweight features and an increase resistance to tear and abrasion

- Superior comfort with concave curve
- Superior Grip
- Fatigue-reducing design

- Double-density PU sole
- SR slip resistance
- Rounded heel strike for natural rolling of foot and driving comfort
- Comfort in every step with concave curve

### GENESIS

#### RAGE S3 ESD

4-12 BLACK | 8406

Water-repellent micro fibre upper, velour finish for lightweight features and an increase resistance to tear and abrasion

- Double-density PU sole
- SR slip resistance
- Multiple flex points in forefoot for natural flex
- Ladder grip design
- Heel energy absorption
- Arch support for stability

# PARABOLIC

Reinforced toe: for longer durability of the shoe

SR Slip Resistance

Rounded heel strike for natural rolling of foot and driving comfort

- Reinforced tip Arch support
- Supports the natural rolling function of the foot
- Reinforced heel area
- Shock absorption of the heel

Parabolic Sole Unit:  
Dual Density PU sole

**ParaBolic®**  
Technology

CONCAVE CURVED SOLE TO CUSHION IMPACT

# GENESIS

SR slip resistance

■ GENESIS PU2D SOLE UNIT:  
Dual Density PU sole

Multiple flex points in forefoot for natural flex

Lateral edges :  
Arch support with front and rear reinforcements and ladder grip design

- Arch support for stability
- Heel energy absorption
- Multiple flex points in forefoot for natural flex

# ADVANCED SAFETY FOOTWEAR WITH COMFORT AND STYLE

The Street PU2D is designed for those who demand both protection and comfort in urban environments. With advanced features tailored to enhance stability, grip, and durability, this footwear ensures you stay safe and comfortable throughout your day.

OMAHA S3

3 - 13 8407

Lightweight, water-repellent microfiber upper

Debris-blocking gusseted tongue

Lightweight aluminium toe cap

Reflective upper strip.

- PU double-density sole
- SR slip resistance & grip
- Wider & flatter design for stability
- Enhanced heel & forefoot shock absorption
- Stud grooves and asymmetric design
- Vertical grooves for water dispersion.

OCEAN S3

3 - 13 8408

STREET

SR slip resistance

Wider & flatter design for stability

Stud grooves with asymmetric design

Street Sole unit:  
Double Density Pu sole
