SEX: MALE

COLOUR: BLACK OR BROWN

THE TITANIUM BOOT HAS BEEN TESTED TO  
COMPLY WITH THE SANS/ISO 20345  
SAFETY FOOTWEAR SPECIFICATIONS AND  
CARRIES THIS STAMP OF APPROVAL.

### FEATURES OF THE EXPLORER:

#### UPPER

- The upper is cut from 1.8 – 2.0mm Buffalo Side Smooth leather, which is strong and has high wearing durability.
- The four pairs of eyelets and two pairs of ski hooks are made from steel, which has been treated with a corrosion resistant “gunmetal” coating.
- The lace is braided and made from a polyester yarn with high abrasion resistance together with a central core for additional strength.
- The collar padding material is from closed cell foam for superior support. Bellows tongue is double leather padding for extra durability. The counter lining is made from 0.8mm heel grip for enhanced stability to prevent the heel from slipping out the boot.

#### IN-SOCK & TOP SOCK

- Anti-static in-sock is made from 2mm non-woven material.
- The top sock is made from a durable polyester material that offers abrasion resistance and is quick-drying in nature. The top sock is treated with Ultra-Fresh technology to impart anti-bacterial and anti-static properties to the material. The top sock contains anti-static stitching.

#### LINING

- The vamp lining is made from a special needled Hi-Tech Fibre blend, which has excellent perspiration absorbency. This results in a low heat build up and a more comfortable shoe for the wearer.
- The quarter lining is from industrial material with good abrasion resistance.

#### TOE CAP

- Steel Toe Cap.
- Extra wide fitting toe cap.
- Can withstand an impact load of 200 Joules.

#### SOLE

- The Rubber outsole is heat, cut and abrasion resistant and provides SR rated slip resistance on most surfaces.
- The cushioned midsole is made from a flexible low density Polyurethane with a shore hardness of 45 – 55.
- The outer sole is made from a high durability Rubber with a shore hardness of 60 - 75.
